---

Thanks Sarah! Because of lodging constraints, I believe the MAML will be mobilizing tomorrow, so stay tuned on a schedule to start OPS – I'd predict tomorrow afternoon at the earliest. Everyone will be kept in the loop on schedule.

Ben – can you work on getting these areas mapped so we have some direction to give the MAML folks when they get here? Please coordinate with them on data deliverables and needs to streamline that process.

Charlie Branch Team – The MAML and 4 LDEQ folks are mobilizing, likely tomorrow morning. Once we have confirmation from logistics that we have lodging for them they will leave Baton Rouge. LDEQ is providing targets and staff to support/guide MAML to accessible and Areas of concern (industry near communities, etc.).

Thanks everyone for your patience and continued support.

We have identified 3 areas in the Beaumont-Port Arthur area that would be ideal for the MAML. They are neighborhoods located next to industrial areas.

The Charlton-Pollard Neighborhood: Mary Street, Beaumont, Texas. We have a continuous air monitoring station(CAMS) in that area. Exxon Mobil Refinery, Exxon Mobil Chemical, Arkema, Martin

The El Vista Neighborhood: The community center in the El Vista Neighborhood is located at 615 Ellias Street, Port Arthur, Texas. We also have a CAMS in that neighborhood. Flint Hills, Motiva Refinery, Valero, Chevron, Oxbow

Port Neches Elementary School: The Port Neches Elementary School is located at 2101 Llano Street, Port Neches, Texas. We also have a CAMS in that neighborhood. Huntsman, Lion Elastomers, TPC, and Calabrian.

I will be the point of contact for organizing this. Adam Brum will be the Air Section Investigator that can assist with this project in the field.

Call me with any questions!  
Sarah

Paige

Not sure I understand You forwarded an out-of-office message. Can you provide a little more info?

Thanks

Chris

I will be out of the office 9/1 through 9/17 traveling

down to the Region 6 REOC. If you need immediate assistance please contact Debbie Bishop at [bishop.debbie@epa.gov](mailto:bishop.debbie@epa.gov) or 913-551-7529. I will be periodically checking emails and voicemails as time allows.

Thanks!

Jake
